

 THE COST OF NON-COMPLIANCE

## HIPAA fines hit small practices the hardest

**75%**

of OCR fines cite a missing Security Risk Assessment

**\$50K+**

minimum fine for willful neglect of HIPAA rules

**55%**

of all HIPAA enforcement actions target small practices

**\$96K+/yr**

for a full-time compliance officer you can't afford

Sources: HHS OCR enforcement data 2019–2025; 45 CFR § 160.404.

## THE PROBLEM

# Why small practices fail HIPAA audits

### Compliance software is built for hospitals

\$100–\$750/month, designed for IT departments. A 5-person dental office can't operationalize tools meant for 500-bed networks.

### Consultants cost more than the fines they prevent

HIPAA consulting firms charge \$5K–\$25K for a one-time gap analysis. The deliverable expires the moment a regulation changes.

### Template packs leave the work to you

\$20–\$200 generic templates aren't customized to your state, your practice type, or your systems. They don't track training, vendors, or breaches.

TrackHIPAA replaces all three for \$49/month.

## HOW IT WORKS

# Audit-ready in three steps

1

### Take the Free Quiz

15-question assessment based on actual OCR audit protocols. See your compliance score in 2 minutes — no signup required.

2

### Set Up Your Practice

Tell us about your practice — type, size, state, systems. 5 minutes. This customizes every document we generate.

3

### Generate & Track

Download 35+ practice-specific HIPAA documents, monitor your score, and one-click export everything OCR asks for.

### TRY IT FIRST

The free quiz at [trackhipaa.com/quiz](https://trackhipaa.com/quiz) shows your compliance score before you pay anything.

## WHAT YOU GET

# Everything in one tool, for \$49/month

- ✓ 35+ customized HIPAA policies
- ✓ Security Risk Assessment wizard
- ✓ Compliance score dashboard
- ✓ Employee training tracker
- ✓ Vendor / BAA manager
- ✓ Breach response workflow
- ✓ AI Oracle with cited answers
- ✓ Regulation change alerts
- ✓ Audit-ready document export
- ✓ Up to 5 users included

### NO PHI STORED

TrackHIPAA generates documents from your practice profile — never patient data. We are not a Business Associate under HIPAA.
